

UNION TOWNSHIP
ELRAMA SEWERAGE SYSTEM

3904 Finleyville Elrama Road
Finleyville, PA 15332

DYE TESTING PROCEDURE

1. Fill out the top portion of the Dye Test form leaving the plumber's portion blank and then submit the form to the plumber.
2. Contact a certified, licensed plumber to perform the required dye test and provide him with the Dye Test form. **The plumber is paid by you, not by Union Township.** Once the plumber does the dye test and fully completes and signs the bottom portion of the form, it will indicate whether the property passed or failed the dye test and the reason for failure, if applicable. This form should be submitted to the Township office, or it can be emailed to secretary@uniontwp.com.
3. If the property passes, a certification/no lien letter will be issued. If the property fails the dye test, it is the responsibility of the property owner to perform the recommended repairs, request a retest, and pay a retest fee.

A SUCCESSFUL DYE TEST IS GOOD FOR ONE YEAR
